Strong, Not Silent

To prove the durability of our products, we've been known to make some noise.

Vintage TV ads featured an elephant on the rampage, smashing all but the Fully Tempered Arcoroc glasses underfoot. We pound nails into boards using a glass as a hammer. We drop steel balls on – and throw – our plates to demonstrate the strength and value we bring to your table. You could say we're the strong but not-so-silent type.

Over generations, we've built our reputation on making beautiful products that last. Some of our material innovations – like Opal® and Zenix® mineralized dinnerware and Kwarx® glassware – offer extraordinary strength. And we revolutionized the industry when we perfected our Fully Tempered glassmaking process in 1958.

From Extra Strong porcelain and High Scratch Resistance to Edge Chip Guarantees watch for our pledges of durability throughout this catalog and online – including the elephant, which tells you when a product is Fully Tempered and Extra Resistant.

Tableware that stands up to the demands of your busy operation? **Now that's smart.**

Stemware

RAISE A GLASS

With French roots, we are clearly passionate about our wine glasses and other stemware. We have a glass for every pour and every budget. Whether your varietals are vintage, traditional, adventurous, local or organic – or if your infused, farm-to-table cocktails deserve to be showcased atop an elegant stem. Stylish and strong, our stemware has long been the industry standard.

When shopping look for these logos with added technology benefits:

Bar Mates

WINE

Cardinal

Customers have grape expectations. While Chardonnay, Cabernet Sauvignon and Merlot are varietal leaders, Malbec, Pinot Grigio, Pinot Noir and Sauvignon Blanc are growing popular varietals as well. Smart bars and restaurants know a greater variety attracts more guests and greater check averages. And the shape of each glass enhances aroma, taste, and effervescence – in short, the customer experience. Here are some matches that will definitely ignite your customers' passion.

RAISE THE SPIRITS

Sure, margaritas and martinis are still cocktail staples. But customers want to shake things up. With fresh, seasonal fruit, herb infusions, spicy syrups, and floral floats, creative mixologists are making sure customers can have their cake and drink it, too.

Shapely, stylish, sleek and strong. We'll toast to that.

When shopping look for these logos with added technology benefits:

TUMBLERS AND BARWARE

Cardinal

Watch out for whiskey, gin and tequila! Because their use is on the rise, these strong drinks are making even stronger profits on bar menus today. And the right glass is an essential part of latching onto any hot drink trends.

Whether your vibe is garden-to-glass seasonal or retro, we have a shape to match it. And many of these glasses work equally well for water, juice or soft drinks. Below are some cocktail glass suggestions.

HIGHBALL

Classic tall glasses leave plenty of room for ice and mixers.

COLLINS

A higher highball. Created for the classic gin Collins, they suit everything from mojitos to iced teas.

COOLER

Larger sizes match best with soft drinks or those with lower alcohol like beer cocktails.

COUPE

We're telling you straight up: retro is in for sipping Champagne or chilled cocktails.

ROCKS OR OLD FASHIONED

A go-to bar staple for strong drinks served neat or on the rocks.

STEMLESS

Herb- and fruit-infused cocktails take on extra sophistication.

RAISE THE BAR

Gone are the days when one or two house beers would do. Today's beer menus are chock full of exotic imports, local microbrews, sampling flights, and a range of styles from lagers and lambics to Belgians and bocks.

When shopping look for these logos with added technology benefits:

Bar Mates

BEER AND CIDER

Cardinal

Wine isn't the only drink that deserves a special glass. Hop on this handy guide to bring out the best in your basic brews and craft drafts alike.

PINTS

Classic pub staple adds foam and flavor to stouts, porters, hard ciders, and ales.

STEMMED

Belgian-style ales – sweet, fruity, and strong – love a curvy body and slim stem for sipping.

MUGS

Get a handle on yourself. Mugs and tankards are a great way to serve lagers and ales.

PILSNERS

Tall, slender profiles help pilsners, hard ciders and wheat beers release their bubbly appeal.

MODERN PILSNERS

A favorite for bringing out the fruity flavors of hard ciders, the Medford is also perfect to enhance a hoppy IPA.

Ideal for Rye, Kölsch, and Bocks, the slender shape of the Evolution kicks up the malt flavors.

Decanters, Carafes & Pitchers

ROOM TO BREATHE

Classic carafes and decanters help wine breathe and are great ways to add elegance to your table service. And smart owners are turning to pitchers more and more to keep large parties satisfied, prevent the bar from backing up, and add to the communal or sharing dining experience that is so hot right now.

We offer a wide range of shapes and sizes in materials that stand up to either outside or inside service. Look for beautifully designed Mouthblown Crystal items, or those featuring strong, sheer rimmed Kwarx® or Drop Control to prevent drips and better manage pours.

Custom Decorated Glassware

A REAL STANDOUT

Custom Decorated Glassware is a great way to increase the perceived value of a visit to your establishment — and to stand out from the competition. Decorated glass draws attention to your beverage selections every time it is in use, and if combined with a take home program — it is a remarkably effective method to keep your name in front of your guests.

Cardinal offers single and multi color screened logos, subtly placed pour lines, satin-etch finishing, and color decals, to name just a few of the many options available. Your glass will be decorated lead-free compliant with foodservice safety guidelines.

If you're working within a fixed budget, our designers are happy to consult with you in adapting your design, keeping your branding requirements and desired appearance in mind. Whatever your choice, we'll work with you throughout the design process to answer your questions, meeting your every need. We'll fine tune the design and decoration, and establish a production schedule to meet your requirements for quality and delivery.

With fast and convenient service, low minimums, preproduction artwork samples, and custom design available, we can create a signature glassware program to enhance your presentation and profits.

To find out how simple and easy the process can be, contact your Cardinal representative or send an email to: custom.deco@arc-intl.com.

Artwork is separated into individual colors by our artists in preparation for being printed onto your glass

Cardinal's precision equipment is meticulously calibrated to ensure quality output on every production run.

Every piece is inspected for quality.

We are equipped to mass produce large orders with our fully automated machines. Glasses ride along the belt to be automatically loaded into the oven for firing.

YOU'RE NOT JUST BUYING BEAUTIFUL
FLATWARE: YOU'RE BUYING TRUST.

Flatware

QUALITY. DURABILITY. STYLE.

DESIGNS YOU CAN TRUST

We craft our flatware for high volume foodservice with the finest materials and highest standards. Each piece is perfectly weighted and balanced so it feels just right in the hand.

Both our Chef & Sommelier® and Arcoroc® brands offer flatware designs from casual to elegant, calling on our European design heritage in thoroughly modern ways.

Choose the high luster, high quality stainless finish — or request any pattern in either luxurious silverplate or a more contemporary brushed finish.

STAINLESS BY THE NUMBERS

Industry standards 18/10 and 18/0 refer to the percentages of chrome (first number) and nickel (second) in the stainless steel alloy.

1. Chrome offers superior resistance to rusting, pitting and corrosion.
2. Nickel allows flatware to keep its color and luster longer.

DINNERWARE CARE & HANDLING

Foodservice dinnerware handles a heavy workload — and while Cardinal builds our dinnerware for such usage, there are some simple steps that can be taken to significantly prolong the life and look of these products. These guidelines cover various troubleshooting and maintenance ideas that are applicable to all types of dinnerware.

- Use a plastic scraper to remove stubborn food — NEVER bang the dinnerware on the ware-washing table or waste can.
- Make sure plates are not colliding with each other (or flatware) during the dishwashing process.
- All dinnerware can be adversely affected by poor washing performance or detergent properties.

To achieve optimum results:

- Have your dishwasher serviced to ensure the rinse cycle is working properly and the correct amount of rinse agent is dispensed. If the concentration of rinse is too weak, oils and proteins are not broken down and may build up on the surface. If too strong, a layer of residue can coat the plate, enabling stains to stick.
- Use “balanced” water — A TH level (measure of calcium in water) of between 5 and 8 is recommended. Use a rinse-agent with a balanced pH level (measure of acidity/alkalinity); levels between 5 and 7 is recommended.

Dinnerware may be affected by other external factors in some cases. For example, the quality of flatware - higher grade stainless steel (18/10 recommended) is much less likely to leave knife marks on the plate. The types of food/ beverages in contact with the dinnerware, beverages with tannins, such as tea and coffee, can leave stains on the surface of tableware pieces more quickly than other liquids and food.

Arcoroc dinnerware has exceptional brilliance, and a beautiful and unique sheen. To guard these properties, periodic “soaking” is encouraged. The soak agent should be at pH level of 11-12 for maximum effectiveness against protein build-up (which contributes significantly to staining and marks). Ideally it will also contain a level of chlorine. Soaking depends on usage - dinnerware in high-volume applications, such as hospitals, may need to soak more frequently.

Cardinal Five-Year Edge Chip Warranty

Arcoroc Extra Strong Porcelain, Zenix and Chef & Sommelier Maxima offer a five-year edge chip warranty as standard on ALL pieces in our collections – yes, including the squares, rectangles and cups – yes, everything. (Conditions available upon request.)

GLASSWARE CARE & HANDLING

Elegant dinnerware, shining cutlery, fresh linens and sparkling glassware make an impression on your customers that is almost as important as what is on your menu. As such, high-quality tableware is a big investment — protecting and maintaining this investment is essential to the success of your operation.

Thermal Shock (intense temperature change causing stress and often resulting in cracking) and Mechanical Shock (impact causing chipping, cracking, or breakage) are the primary factors affecting the lifecycle of glassware.

Foodservice glassware absorbs thermal and mechanical shocks on a daily basis. Eventually, it will give in to the buildup of these shocks, and breakage will occur. If your glassware shows the wear and tear of rigorous use, it should be retired — before it can break in service or otherwise affect your customers' opinion of your operation.

To get the most from your Cardinal glassware

Reduce the occurrence of thermal shock:

- Allow freshly washed glasses to return to room temperature before going back into service.
- Preheat glassware used for drinks with warm water.
- Never use a dishwasher-warm glass for serving cold beverages.

Cut down on mechanical shock:

- Utilize the appropriate ware washing rack system.
- Stack only items specially marked as stackable.
- Use an ice scoop to fill your glasses.
- Avoid glass-to-glass contact or other impact.
- Separate your glassware from china and cutlery in bus trays.

Maintain sufficient back-up inventory – and order according to recommended par levels:

- High-volume use items = three pieces x number of settings
- Medium use items = two pieces x number of settings
- Low use items = one piece x number of settings
- Specialty items = as required

Because no two restaurants are the same, daily usage, handling practices and results will vary. For more information on care and handling, please contact your Cardinal International representative or call our customer service department at 973-628-0900.

FLATWARE CARE & HANDLING

Strict adherences to specifications and stringent quality controls at each stage of production make Arcoroc and Chef & Sommelier flatware resistant and reliable. We meticulously scrutinize our items to ensure they are of the correct gauge, an important guarantee of durability.

Cardinal offers flatware made from **18/10 stainless steel** and is designed to withstand intensive use and industrial dishwasher conditions. Whether classic or modern, you will find the Arcoroc or Chef & Sommelier pattern that fits your needs in terms of aesthetics and user requirements. For your peace of mind, our products come with a 10-year guarantee, applicable in case of any defect in the materials or production. This guarantee is only valid if all recommendations for use (listed below) are followed. Damage due to normal wear and tear, an accident, improper use, excessive use of detergents or use of non-compliant detergents is not covered by this guarantee. Our 10-year guarantee does not cover discoloration, scratching or staining.

Directions for use:

- To prevent salt or food drying on the flatware, it must be thoroughly rinsed after use.
- Emptying the dishwasher immediately after the washing cycle and drying the flatware with a soft cloth is recommended.
- Take care to wash silver and stainless steel flatware separately, to avoid discoloration.
- Stainless steel flatware must never be cleaned using products intended for silver flatware.
- All flatware must be stored in a dry place.
- Always use cooking utensils intended for their purpose, not flatware for cooking.
- Intense heat could damage the flatware's surface and cause discoloration.
- Always separate flatware from other items in bus trays.
