SaferFood SOLUTIONS™

SAFER FOOD SOLUTIONS

TableCraft® Provides Solutions... Solutions to protect & serve your customers.

From prepping to serving food, TableCraft offers Safer Food Solutions™ that promote food safe practices, improve efficiencies, reduces waste, and promotes cleanliness and sanitation within your establishment.

COLOR-CODED SYSTEMS HELP PREVENT CROSS-CONTAMINATION

Cross-contamination is the transfer of harmful bacteria to food from other foods. TableCraft's **Color-coded cutting boards** and utensils promote food safe practices by designating foods to colors for safer food prep.

FOOD ROTATION MANAGES THE QUALITY AND SAFETY OF FOOD.

Minimize waste, ensure proper food rotation, and save time with our selection of **Dualway™ and Invertatop™ squeeze bottles and BBQ Brush dispensing systems.**

PREVENT "CROSS-CONTACT" OF KNOWN FOOD ALLERGENS OR GLUTEN

TableCraft has the dedicated tools to help prepare and label foods for your **allergen sensitive and gluten intolerant** guests. Adhering to a process assures the elimination of cross-contact of known allergens to your food prep and serving standards.

FOODBORNE PATHOGENS ARE SPREAD DUE TO IMPROPER FOOD HANDLING

Foods that are pre-made and require no additional cooking are at the highest risk of spreading illness. Our **NSF® Option dispensers & Invertatop™ Squeeze Bottles** allow you to serve dressings and sauces worry-free without the mess and eliminate the fear of hand to food cross-contamination. Cold holding solutions easily fits into cold wells for salad bars or food pans that allow you to ice down and keep out of the danger zone.

CLEANLINESS HELPS PREVENT FOODBORNE ILLNESS

Cleanliness is a major factor in preventing foodborne illness. Everything that touches food should be clean. Our **Ridal Collection™ Serving Baskets** are dishwasher & microwave safe – allowing your kitchen to run more efficiently by saving time and keeping to Safer Food standards. Our **NSF® Ribbed Ramekin Family** allows condiments to be plated in an easy to clean, portion controlled manner. Our **PourMaster®** series keeps your bar tools more sanitary and easy to clean.

CROSS-CONTAMINATION FROM FOREIGN PARTICLES

Corrosion naturally happens in foodservice environments. Hazards from rust can lead to physical, chemical and microbiological issues which cause adverse health effects. Rust can carry organisms which can cause illness as well as flake off into foods. TableCraft combats rust with easy to clean, hygienic **plastic shaker tops.**

CROSS-CONTAMINATION FROM FOOD AND FOOD CONTACT SURFACES

One of the most overlooked vehicles for cross-contamination are cardboard film & foil dispensers. Since cardboard is absorbent and cannot be washed, it easily harbors microbial germs, contaminants and even pests. Keep your film & foil more sanitary, save money by reducing waste with **KenKut™** Film & Foil dispensers.

BUFFET CATERING & DISPLAY SOLUTIONS

Elevate Your Brand Image.

TableCraft offers an array of products that elevate your brand image, enhance your buffet line or catered event and deliver dependable, durable solutions that keep your guests and staff happy.

PROFESSIONAL BAKEWARE BY TABLECRAFT

Professional Bakeware by TableCraft has a deep-seated history of bringing to market high quality products that are dependable and promote food safe practices.

Handcrafted Sand-Cast Aluminum offers a virtually unbreakable design, available in 24 colorful options, and conducts or maintains temperature for an extended period of time - better than most other serving options in the market. Mix and match serving pieces to create an eye catching presentation to enhance your brand image.

Our DuraCoat™ cast coating is NSF® listed, dishwasher safe, and durable up to 212°F.

TableCraft provides its customers with a convenient and unique recoating program. Please contact your dealer for a quote and a recoating number (RCA) to finish your cast aluminum serve ware.

Please allow up to 4 weeks for TableCraft to refinish your cast aluminum project.

Cast Aluminum Serving

Bring the "cool" factor to your salad bar with Coated Cast Aluminum solutions. DuraCoat™ Aluminum coating provides an ideal cold holding solution in virtually any environment. Choose from different designs, shapes and colors to bring a contemporary image to your food offering while maintaining food safe temperatures throughout your entire service.

CONTEMPORARY COLLECTION™

Buffet Collections

TableCraft's Buffet Collections capture stylish versatility. The products are designed to build better buffets that enhance your brand image while elevating your craft.

FROSTONE COLLECTION™

Display the elegance without the heft. Our Frostone Collection™ has the distinguished look of slate or porcelain but is made of durable and break resistant melamine. The Frostone Collection™ matches its durability with style; mix and match any size trays, bowls and sauce dishes to make this line the perfect collection to spice up any buffet or tabletop setting.
Unique shapes, sizes, colors and textures.

Can hold food up to 158°F/70°C.
Dishwasher safe.
Not microwave or oven safe.
