CHINA CARE AND HANDLING

Crestware knows how important it is to protect and preserve your company's image and the first image is your tabletop. In order to protect preserve and enhance your image proper care and handling of all china and dinnerware is of the utmost importance. Keeping your china looking like new is why all our items go through rigorous testing in order to provide you with long lasting quality and protection. All of Crestware china is certified and vitrified using only the best materials from around the world.

Below are some basics you can do to preserve the look while prolonging the life of your china and dinnerware.

Avoid Breakage & Chipping by:

- Always using a bowl or rubber scraper to remove excess food. Never strike china edges on another surface to remove excess food and debris
- Avoiding improper or overloading of dish racks or bus tubs
- Never stacking heavy items on lighter items and/or stacking china too high

Avoid Scratches, Stains, and/or Discoloration by:

- Avoiding use of metal or other marking trays, boxes, and/or racks
- Avoiding scouring with abrasive pads or implements
- Allowing china to cool and dry before storage
- Not allowing china to remain unwashed for long periods after use
- Avoid use of untreated hard water or equipment with mineral build-up
- Do not use incorrect detergent concentrations or harsh detergents

STAINLESS STEEL TABLEWARE CARE AND HANDLING

While stainless steel is highly resistant to stains and corrosion even the finest alloys will suffer if corrosive food chemicals are not removed by proper soaking, washing, finishing, and drying procedures. Careful handling will prolong the life and luster of your stainless steel tableware.

1. Remove all food remnants immediately after use.
2. Presoak in a plastic or stainless steel pan using a nonabrasive presoak compound. Do not allow to soak overnight or for excessive periods of time.
3. Wash in hot water with a nonabrasive and noncorrosive cleaning agent.
4. Rinse in water at least 180 degrees Fahrenheit. A wetting agent or water softener may be required if using water of high mineral content.

WARNING: LOW TEMP DISHWASHING!

If you are using a low-temp or chemical bath dishwashing process take great care in following the manufacturer's instructions. Improper use or faulty equipment will cause staining or corrosion of even the finest stainless steel.

Forged Knives

The Crestware Elite Series knives are drop forged from a single piece of steel. This high carbon German Molybdenum Vanadium Tool Steel (X50CrMoV15) is hand honed and polished for a razor sharp cutting edge. The santoprene ergonomically designed softgrip molded handle is textured to resist slipping and is seamless, making it completely hygienic and NSF approved.

Looking for the "Best Fry Pan" on the market?

- **3004 Aluminum** is 38% Stronger than 3003 • **Molded and plain handles**
- **Heat Resistant to 450°** • **Non-tip Design** • **Heavy 3-rivet Design!**

Anodized for durability, these fry pans heat faster and are more durable than standard aluminum frying pans. Premium PTFE finish, non-stick coating provides a resilient cooking surface, lasting up to seven times longer than standard non-stick coatings. This series is only available with the molded stay-cool handles.

Our heaviest duty fry pan incorporates Premium PTFE finish, the finest non-stick coating presently available on the market. Lasting up to seven times longer than standard non-stick coatings, this fry pan guarantees a longer cooking life than similar fry pans. The handles are chrome-plated steel. Heat-resistant molded stay-cool handles are available.

Crestware Dish Rack Sizing Guide

Place glassware upside down on compartment chart to determine which rack to use.

To assemble extenders, line up snap clips on all 4 sides, squeeze or pinch the rack with your fingers top and bottom around the snap clip. Don't try to push the rack together all at once. The clips won't snap completely, causing the clips to come apart or break.

PLACE GLASS ON SIDE WITH BASE OF GLASS ON RED LINE.
 READ NUMBER OF EXTENDERS NEEDED ON GRAPH AT LEFT.
