

# HOSPITALITY PRODUCT PORTFOLIO

Comprehensive Water Solutions For Your Hospitality Facility

# WE MAKE SUSTAINABLE BUILDING PRODUCTS

For more than two centuries combined, the businesses of **Zurn Elkay Water Solutions** have been providing clean water solutions that promote health, support better hydration, conserve and protect natural resources and help keep people safe. Our brands deliver safety, reliability, quality and performance that our customers demand, while providing the lowest total cost of ownership and environmental impact.

# CREATING A BETTER PLACE TO WORK

With guests constantly coming and going, providing a safe and sanitary environment is an around-the-clock job. Zurn Elkay Water Solutions provides employees and guests with superior products that are durable, affordable and easy to maintain. Our range of commercial-grade products supports the plumbing needs of boutique hotels and national chains of varying sizes. Whether you need to upgrade rooms with durable kitchenette sinks or provide convenient access to fresh, filtered water, we'll help enhance your amenities to keep guests satisfied.

# TOGETHER WE CAN MAKE A DIFFERENCE

As a leader in clean water solutions, we focus on product enhancements that help customers meet their sustainability goals, including conserving water, supporting human health and hygiene, and selecting responsibly manufactured products that make extensive use of recycled materials to reduce waste.

## HOW WE SAVE YOU MONEY

Our innovative water solutions are designed to deliver savings to your building's budget. With eco-friendly hand dryers, bottle filling stations, and sensor faucets and flush valves, hospitality facilities can better allocate the funds normally spent on things like paper towels and water bottles.

## HOW WE SAVE YOU TIME

Our portfolio of products is designed for easy installation and easier operation. Our hands-free bottle filling stations provide a rapid fill of water to keep people on the move while our reliable, sensor-activated restroom solutions prevent downtime and unnecessary repairs.

## HOW WE SAVE THE PLANET

Our products help protect and conserve water, eliminate single-use plastics, reduce energy consumption and mitigate the impact of climate change. Our connected products also provide you with the insight and data you need to track and monitor your water usage.

## HOW WE SAVE YOU

Aging infrastructure and pollution have resulted in an epidemic of contaminants in our drinking water. Our products provide point-of-use filtration that makes drinking water safer and cleaner by reducing lead, PFAS (PFOA/PFOS), microplastics and more.

**SAVINGS****TIME****SUSTAINABILITY****HEALTH**

	<b>SAVINGS</b>	<b>TIME</b>	<b>SUSTAINABILITY</b>	<b>HEALTH</b>
<b>Drinking Water</b>	Simplified filter maintenance provides substantial labor cost savings	Drop down wrapper, automatic filter reset and high-capacity filters save time and lower total cost of ownership	Bottle filling stations offer filtered water on demand and eliminate plastic waste	WaterSentry® filters reduce harmful water contaminants, such as PFOA/PFOS, lead and microplastics
<b>Filtration</b>	High-capacity filters reduce frequent filter purchases	High-capacity filters cut number of filter changes per year in half	Save up to 38,400 plastic bottles with every high-capacity filter	Point-of-use filtration ensures reduced lead/PFAS at point of consumption
<b>Finish Plumbing</b>	Self-generating Hydro•X Power® requires no hardwiring or constant costly battery replacements, lowering installation and maintenance costs	Gear-driven devices minimize clogs and run-ons and eliminate the ongoing replacement of traditional solenoids	Minimize the number of batteries being sent to local landfills with Hydro•X Power faucets and flush valves	Auto-flush and line flush capabilities on sensor products improve water safety
<b>Diaphragm and Retrofit Kits</b>	GO BLUE® diaphragms last up to 10 times longer than traditional black rubber	EZ Flush® retrofit kits make it easy to upgrade from a manual to a sensor flush valve in minutes	Gear-driven ceramic cartridges and GO BLUE filtered diaphragms reduce clogs, run-ons and help conserve water	Sensor products reduce touchpoints
<b>Hand Dryers</b>	Energy efficient and can use as little as 3.16 watt-hrs. per use	Removes need for facility teams to restock paper towels and empty waste bins	Uses less energy to produce and less CO <sub>2</sub> pollution than processing paper towels	HEPA filter captures 99.97% of particles 0.3 microns or larger
<b>Partitions and Lockers</b>	Full range of materials, mounting styles, and privacy options to meet any design or budget requirements	Fast, reliable lead times and superior packaging ensures projects are completed on time and hassle-free	Constructed of recycled content (up to 91% for partitions; 50% for lockers)	Partitions include an emergency access feature in case of medical emergencies
<b>Sinks</b>	High quality materials reduce the need for replacements or repairs	Mounting clips placed inside the channel before installation means less time under sink	Contain 78% recycled material and are 100% recyclable	Stainless steel sinks and pads are free from Red List chemicals and toxins
<b>Backflow Preventers and PRVs</b>	Lowest total cost of ownership	Cartridge style internals for easy swap maintenance	PRVs can reduce water consumption by 25%	Backflow preventers keep contaminated water from flowing back into potable water supply
<b>Interceptors</b>	Superior performance reduces and/or eliminates sewer-use surcharges and penalties	Easy to install and maintain	Ensures better separation efficiency of fats, oils and grease and prevents them from entering sewers	Prevents leaks and exposing soil and groundwater to harmful chemicals

# ACHIEVE SUSTAINABILITY >>

We know that meeting the sustainability needs of today, with lean maintenance teams and budget constraints, can be a challenge. Zurn Elkay is here to help make it easy.

Our customers care deeply about the sustainability of their building and retrofit projects, which is why we offer a complete portfolio of sustainable products for hygienic and hydration services. Some of the most important contributions we make to customers are delivering solutions that help them achieve building certifications from industry-leading sustainability guidelines and helping to save time and money with streamlined operations, maintenance and repair solutions.

*\*as of December 2023*

# DRINKING WATER

Elkay filtered bottle filling stations save time, cut costs and minimize plastic bottle waste, all while offering cleaner, safer hydration that reduces lead, microplastics, PFAS (PFOA/PFOS), and other harmful contaminants.

## LZS8WSMP

### Enhanced Filtered Bottle Filling Station with Drop-Down Wrapper, Single

- Cloud connected units wirelessly connect to the plumbSMART portal, which allows for monitoring filter status, tracking water usage, and scheduling remote flushing.
- Drop-down cooler wrapper allows for quick, convenient filter changes in under a minute, including automatic filter reset.

## LZSTL8WSMP

### Enhanced Filtered Bottle Filling Station with Drop-Down Wrapper, Bi-Level

- Cloud connected units wirelessly connect to the plumbSMART portal, which allows for monitoring filter status, tracking water usage, and scheduling remote flushing.
- Drop-down cooler wrapper allows for quick, convenient filter changes in under a minute, including automatic filter reset.

## LBWDC00BKC

### Liv® Pro In-Wall Commercial Filtered Water Dispenser

- Install a filtered water dispenser in convenient commercial spaces such as guest areas, conference rooms, lobbies and break rooms.
- Fits within the width and depth of two wall studs near water and electric; includes drip tray with optional drain connection.

## LBWDC00WHC

### Liv® Pro In-Wall Commercial Filtered Water Dispenser

- Install a filtered water dispenser in convenient commercial spaces such as guest areas, conference rooms, lobbies and break rooms.
- Fits within the width and depth of two wall studs near water and electric; includes drip tray with optional drain connection.

Learn more about our drinking water solutions.

## KEY BENEFITS

### Cost Reduction

- Drop down wrapper reduces time spent changing filters, resulting in labor cost savings.
- High-capacity filters last twice as long as standard filters, resulting in less frequent filter purchases.

### Time Savings

- Easy maintenance design, automatic filter reset and high-capacity filters save time, cut costs and minimize resources for a low total cost of ownership.
- Drop down wrapper reduces filter changes from 10 minutes to 1 minute.
- Connected capabilities allow for monitoring filter status across all units, making it easier to plan and anticipate filter replacements.

### Sustainability

- Bottle filling stations offer safer, filtered water on demand, all while eliminating plastic waste from waterways and landfills.
- Automatic bottles saved counter shows the real-time number of plastic bottles saved from landfills.
- Connected units allow facility teams to understand the volume of water consumed vs. wasted at a glance.

### Health and Safety

- Schedule flushing events from your desktop, with automatic record-keeping to ensure compliance and safety.
- Units pair with Elkay WaterSentry filters, which are tested and certified for the reduction of harmful contaminants such as PFOA/PFOS, lead, microplastics and more.

*LBWDC00BKC Liv Pro In-Wall  
Commercial Filtered Water Dispenser*

# FILTRATION

Elkay water filters give you the confidence of knowing what's NOT in your drinking water. They are tested and certified to NSF/ANSI 42, 53 and 401 for the reduction of lead, microplastics, PFOA/PFOS (PFAS) and other harmful contaminants.

Learn more about  
our filtration solutions.

*LZS8WSSP-W1 Bottle Filling Station  
51600C Filter*

## KEY BENEFITS

### Cost Reduction

- High-capacity filters reduce number of filter purchases needed.

### Time Savings

- Easy filter access allows for filter changes in under a minute.
- High-capacity filter lasts twice as long as standard filters.

### Sustainability

- Save up to 38,400 plastic bottles from the landfill with every high-capacity filter.

### Health and Safety

- Point-of-use filtration ensures reduced lead, microplastics, and PFOA/PFOS at point of consumption for the cleanest water possible.

#### 51300C

##### WaterSentry Lead and Microplastics Filter

- Small and compact for easier filter changes.
- Certified to reduce lead, microplastics, chlorine taste and odor, and Class I particulates.

#### 51600C

##### WaterSentry High-Capacity Lead and Microplastics Filter

- High-capacity 6,000-gallon filter reduces need for frequent filter changes.
- Certified to reduce lead, microplastics, chlorine taste and odor, and Class I particulates.

#### 71300C

##### WaterSentry PFOA/PFOS, Lead and Microplastics Filter

- Certified to reduce PFOA/PFOS (PFAS), lead, microplastics, chlorine taste and odor, and Class I particulates.
- High performance filter with more contaminants reduced.

#### EWF3000

##### Universal Filtration Kit

- Converts non-filtered bottle filling stations into a filtered unit.
- Kit includes all accessories needed for a complete installation.

#### EF3000VRBMC

##### Universal Vandal-Resistant Filtration Kit with Filter Status Monitor

- Metal box protects filter and discourages tampering.
- LED filter status monitor and audio alert indicate when filter replacement is needed.

## OUR SOLUTIONS

# FINISH PLUMBING COMMERCIAL FAUCETS

Zurn's commercial-grade faucets and soap dispensers stand up to heavy use over time. Our sensor fixtures help to reduce touchpoints and minimize germ spread. And our newest sensor faucet models feature EZ Gear ceramic gear-driven cartridges that outperform traditional solenoid models while minimizing water hammer. Zurn's manual faucets feature heavy-duty 1/4-turn ceramic disc cartridges that withstand over 1,000,000 cycles.

Learn more about  
our commercial faucets.

### Z7440-XL

#### AquaSpec® Sierra Manual Faucet

- Zurn's AquaSpec faucets provide the highest level of durability for commercial applications with cast-brass bodies.
- Single-control lever handle is ADA compliant.
- Heavy-duty 1/4-turn ceramic disc cartridge withstands over 1,000,000 cycles.

### Z6957-XL and Z6957-SD

#### Nachi Series® Wall Mount Sensor Faucet with Matching Sensor Liquid Soap Dispenser

- Sleek, contemporary design with matching sensor soap dispenser for coordinated, modern style.
- Hands-free operation deters germ transfer.
- Also available in a foaming soap option with suffix -FSD.

*ZG6950-MB Serio® Series Matte Black Faucet with Hydropower  
Z6950-SD-MB Serio Series Matte Black Soap Dispenser  
Z5005 Sundara® Sink*

## ZG6953 and Z6953-FSD

### Camaya Series® Single-Hole Sensor Faucet with Gear-Driven Ceramic Cartridge and Matching Sensor Foaming Soap Dispenser

- Uses EZ Gear technology, a solenoid-free, gear-driven ceramic cartridge that is less susceptible to debris and buildup for less maintenance, outlasting and outperforming solenoids while minimizing water hammer for a quieter quest experience.
- Hydro•X Power option delivers sustainable performance by providing reliable, uninterrupted hydropower designed to last the life expectancy of a commercial restroom.
- Hands-free soap dispenser deters germ transfer and offers a sleek, contemporary design that matches the faucet. Also available in a liquid soap option with suffix -SD.

## KEY BENEFITS

### Cost Reduction

- Save hundreds of labor hours changing batteries over the life of sensor faucets and flush valves with Hydro•X Power.

### Time Savings

- Minimize the demand on maintenance teams with heavy-duty manual fixtures, engineered to last.

### Sustainability

- Minimize the number of batteries being sent to local landfills with Hydro•X Power faucets and flush valves.

### Health and Safety

- Mitigate the risk of Legionella in hospitality facilities through automated flushing.

# FINISH PLUMBING COMMERCIAL FLUSH VALVES

Zurn's products and systems are designed to work better together. Our sensor flush valves help to reduce touchpoints and minimize germ spread and our GO BLUE parts and diaphragms outlast traditional black rubber, reducing the need for replacements. Zurn sensor flush valves eliminate finicky solenoids for greater durability performance that saves water and maintenance costs.

Learn more about our commercial flush valves.

## ZER6000AV-HYD/ZER6003AV-HYD

**Top Mount Exposed Sensor Flush Valves with Gear-Driven Ceramic Cartridge, Hydropower and AquaVantage Diaphragm for Water Closets or Urinals**

- Hydro•X Power technology generates and stores power from the source – the water flowing through the fixture – which replaces an endless supply of costly batteries and hardwiring.
- Uses EZ Gear technology, a solenoid-free, gear-driven ceramic cartridge that is less susceptible to debris and buildup for less maintenance, outlasting and outperforming solenoids.
- Available in three designer finishes: Polished Chrome, Brushed Nickle and Matte Black.

## ZTR6200EV

**ZTR Piston Sensor Flush Valves for Water Closets or Urinals**

- Low flow rates (1.1 gpf for water closets and 0.125 gpf for urinals) save up to 30% more water.
- Chemical-resistant GO BLUE gaskets and seals extend service life with lower maintenance costs.

## ZER6000AV-TM/ZER6003AV-TM

**Top Mount Exposed Sensor Flush Valves with Gear-Driven Ceramic Cartridge and AquaVantage® Diaphragm for Water Closets or Urinals**

- Uses EZ Gear technology, a solenoid-free, gear-driven ceramic cartridge that is less susceptible to debris and buildup for less maintenance, outlasting and outperforming solenoids.
- True mechanical manual override button delivers on-demand flushing.
- Available in battery powered or hardwired with battery backup (with -HW suffix).

## Z6000AV/Z6003AV

**Top Mount Exposed Manual Flush Valves with AquaVantage Diaphragm for Water Closets or Urinals**

- GO BLUE triple-filtered diaphragm resists clogs and withstands corrosion for maximum uptime.
- Chemical-resistant GO BLUE gaskets and seals extend service life with lower maintenance costs.

## KEY BENEFITS

### Cost Reduction

- Save hundreds of labor hours changing batteries over the life of sensor faucets and flush valves with Hydro•X Power.
- GO BLUE diaphragms last 8 – 10 times longer than traditional black rubber, eliminating the need for annual replacements and reducing maintenance demands.

### Time Savings

- Minimize the demand on maintenance teams with heavy-duty manual fixtures, engineered to last.

### Sustainability

- Sensor flush valves conserve water with standard low flow rates and triple-filtered AquaVantage diaphragms that help reduce wasteful run-ons/leaks.

### Health and Safety

- Minimize unsanitary run-ons, leaks or inconsistent flush volumes with GO BLUE parts and diaphragms for flush valves.

ZER6003AV-HYD Hyropower Sensor Flush Valve  
Z5755-U Omni-Flo™ Urinal

## OUR SOLUTIONS

# FINISH PLUMBING

## DIAPHRAGMS & RETROFIT KITS

Zurn's clog-resistant, triple-filtered, and linear-filtered bypass diaphragms provide repeatable flush performance and help reduce maintenance costs compared to traditional dual-filtered diaphragms. Our retrofit kits also make it easy to upgrade to a sensor-operated restroom, with touchless solutions to help promote a cleaner environment.

Learn more about  
our diaphragms.

### P6000-ECA-WS1

**1.6 GPF AquaVantage Chemical- and Clog-Resistant Diaphragm Water Closet Repair Kit**

- AquaVantage diaphragms are made of chemical-resistant thermoplastic elastomer, which lasts 8 – 10 times longer than traditional rubber.
- Superior resistance to chloramine, chlorine and other harsh chemicals.

### P6000-ECA-HET

**1.28 GPF AquaVantage Chemical- and Clog-Resistant Diaphragm Water Closet Repair Kit**

- AquaVantage diaphragms are made of chemical-resistant thermoplastic elastomer, which lasts 8 – 10 times longer than traditional rubber.
- Superior resistance to chloramine, chlorine and other harsh chemicals.

### P6000-EUA-WS1

**1.0 GPF AquaVantage Chemical- and Clog-Resistant Diaphragm Urinal Repair Kit**

- AquaVantage diaphragms are made of chemical-resistant thermoplastic elastomer, which lasts 8 – 10 times longer than traditional rubber.
- Superior resistance to chloramine, chlorine and other harsh chemicals.

*Zurn GO BLUE diaphragm kits are compatible with most competitor models.*

### ZERK-SM

#### Side Mount EZ Flush Exposed Sensor Flush Valve Retrofit Kit with Gear-Driven Ceramic Cartridge for Water Closets and Urinals

- Gear-driven operation outlasts solenoids, minimizing replacement costs.
- Internal sensor and motor components never encounter water, helping to prevent corrosion.
- Quickest way to upgrade from manual to sensor in just minutes.

### ZERK-U-TM/ZERK-C-TM

#### Top Mount Exposed Sensor Flush Valve Retrofit Kit for Urinal with Ceramic Gear Technology and AquaVantage Diaphragm

- Uses EZ Gear technology, a solenoid-free, gear-driven ceramic cartridge that is less susceptible to debris and buildup for less maintenance, outlasting and outperforming solenoids.
- True mechanical manual override button delivers on-demand flushing.

## KEY BENEFITS

### Cost Reduction

- GO BLUE diaphragms and parts outlast the competition, minimizing the cost and maintenance hours required throughout the lifetime of the product.

### Time Savings

- Free up time taken on backlog of deferred maintenance.

### Sustainability

- Conserve water with AquaVantage diaphragms, which minimize run-ons, leaks and inconsistent flush volumes, that necessitate costly double flushing.

### Health and Safety

- Upgrading from manual to sensor devices reduces touchpoints.

Learn more about our retrofit kits.

ZER6000AV-CPM/ZER6003AV-CPM  
AquaVantage Sensor Flush Valves

# FINISH PLUMBING

## SHOWERS AND SINK TRIM

Provide your restrooms with the highest level of durability with Zurn's showers and trims. Our showers feature high pressure shower heads and hoses that can hang to drain thoroughly, mitigating the risk of Legionella. The chrome-plated finish also resists rust and simplifies maintenance.

### Z7301-SS-MT-S9

#### Temp-Gard® III Shower Unit

- Temp-Gard® pressure-balancing valves maintain a consistent water temperature, making them a smart choice for active bathroom environments.
- Maximum temperature limit prevents scalding or burning.

### Z8701-PC

#### Semi-Cast P-Traps with Wall Bend

- Chrome-plated cast body p-trap with cleanout.
- Shallow escutcheon with compression inlet.

### ZW3870XLTF

#### Aqua-Gard® Thermal Flush Thermostatic Mixing Valve

- Precise temperature control delivers protection from scalding injuries.
- Chrome-plated finish provides enhanced durability against corrosion.

### Z8946-3-NT

#### Trap Wrap Kit

- Includes one trap protector, two supply stop protectors and one offset drain protector.
- ADA compliant and resists thermal transfer.

Learn more about  
our showers.

## KEY BENEFITS

### Cost Reduction

- Complete shower units include shower heads, arms, handles, hoses, and mounting connections, minimizing costs for commercial installations.

### Time Savings

- The chrome-plated finish resists rust and simplifies maintenance.

### Sustainability

- Adjustable flow rate of shower heads helps save water.

### Health and Safety

- Shower hoses hang to drain thoroughly, mitigating the risk of Legionella.
- Maximum temperature limit prevents scalding or burning.
- Thermostatic mixing valve delivers high protection from scalding injuries.

OUR SOLUTIONS

# SINKS COMMERCIAL

For more than 100 years, Elkay has been synonymous with commercial-grade stainless steel sinks. Elkay sinks are designed to withstand the heavy-duty requirements of commercial use, and are available in a variety of designs, sizes and configurations.

Learn more about our  
stainless steel sinks.

*EFS3321C Floor Mount Service Sink  
LK940BP03T4S Faucet*

## KEY BENEFITS

### Cost Reduction

- High quality sink reduces the need for repairs and replacements.

### Time Savings

- Faster and easier installation with U-Channel system.

### Sustainability

- Sinks contain 78% recycled material and are 100% recyclable.

### Health and Safety

- Stainless steel sinks and pads are free from Red List chemicals and toxins.

#### ELUHAD211555

Lustertone® Classic Stainless Steel 23-1/2" x 18-1/4" x 5-3/8" Single Bowl Undermount Sink

- Sound Guard® technology enhances sound-deadening performance.
- Highest quality 18-gauge thickness and Type 304 stainless steel for lasting durability, performance and finish.

#### LRAD2219553

Lustertone Classic Stainless Steel 22" x 19-1/2" x 5-1/2" Single Bowl Drop-In Sink

- ADA compliant when properly installed.
- Highest quality 18-gauge thickness and Type 304 stainless steel for lasting durability, performance and finish.

#### LR22193

Lustertone Classic Stainless Steel 22" x 19-1/2" x 7-5/8" 3-Hole Single Bowl Drop-In Sink

- Large pads enhance sound-deadening performance for a quieter time at the sink.
- Highest quality 18-gauge thickness and Type 304 stainless steel for lasting durability, performance and finish.

#### EFS3321C

Stainless Steel 33" x 21" x 8" Single Bowl Floor Mount Service Sink Package

- Highest quality 16-gauge thickness and Type 304 stainless steel for lasting durability, performance and finish.
- Sound-deadening material minimizes sound and vibration.

#### ESSB2520C

Stainless Steel 25" x 19-1/2" x 12" Wall Hung Service Sink Kit

- Highest quality 14-gauge thickness and Type 304 stainless steel for lasting durability, performance and finish.
- 12" high, full-length backsplash.

#### SS81242

Sturdibilt® Stainless Steel 27" x 27-1/2" x 14" Floor Mount Single Compartment Scullery Sink

- Highest quality 14-gauge thickness and Type 304 stainless steel for lasting durability, performance and finish.
- 14" deep compartments.
- 8" high, full-length backsplash.

#### ELUH2115

Lustertone Classic Stainless Steel 23-1/2" x 18-1/4" x 7-1/2" Single Bowl Undermount Sink

- Large pads enhance sound-deadening performance for a quieter time at the sink.
- Highest quality 18-gauge thickness and Type 304 stainless steel for lasting durability, performance and finish.

# PARTITIONS & LOCKERS

Hadrian is in the privacy business. Our top-quality toilet partitions and lockers are delivered reliably on-time and damage-free to ensure your project is completed on schedule.

## Phenolic Partitions

- Stylish, upscale appearance with pedestal mounting, a wide range of colors, and designer hardware that's available in stainless steel or matte black.
- Doors and panels have an integrated no-sightline design to completely eliminate sightline gaps as a standard feature.

## Stainless Steel Partitions

- Hygienic material with extremely high recycled content.
- Offers industry-best fire resistance with Class A fire rating; will not give off toxic smoke if exposed to heat or flame.
- Offers maximum privacy to users, with optional extended panels, doors and full-height channels to eliminate sightline gaps.

## Powder Coated Partitions

- A low-cost option that delivers high performance.
- Offers industry-best fire resistance with Class A fire rating.
- Available with optional extended panels and doors, as well as full-height channels to eliminate sightline gaps and achieve maximum privacy.

## Corridor (Emperor) Lockers

- Powder coated paint offers an even finish that's durable and combats rust.
- Doors feature a double pan design with honeycomb core for rigidity, durability, impact resistance and quiet operation.

Learn more about our partitions and lockers.

## KEY BENEFITS

### Cost Reduction

- Full range of materials, mounting styles and privacy options to meet any design or budget requirements.

### Time Savings

- Fast, reliable lead times and superior packaging ensures your project is completed on time and hassle-free.
- Locker latching system has no moving mechanical parts that can require maintenance attention over time.

### Sustainability

- Powder coated partitions contain up to 50% recycled content and stainless steel partitions contain up to 91%.
- Powder coating system produces virtually no waste and energy consumption is low.

### Health and Safety

- Doors and panels are available with a no-sightline design to completely eliminate sightline gaps.
- Partition doors are equipped with an emergency access feature.
- Stainless steel partitions promote a hygienic environment, while offering a clean, modern appearance.

*Embossed Stainless Steel Partitions  
ZER6000AV-W2 Connected AquaVantage Sensor Flush Valve  
Z-LIGHT-W1 Zurn Smart Occupancy Light*

# HAND DRYERS

Founded in 1950, World Dryer continually sets new technology standards for the hand dryer industry by focusing on hygiene, low cost of ownership, and environmental savings. Our goal is to offer the cleanest, safest and most environmentally friendly hand dryers in the world.

**Q-973A2**  
HEPA-Filtered VERDEdri® Hand Dryer

- HEPA filter captures 99.97% of particles 0.3 microns or larger.
- Surface mount hand dryer installation complies with ADA, eliminating the need for expensive recess kits or additional installation expenses.

**L-973A**  
SLIMdri® Hand Dryer

- Surface mount hand dryer installation complies with ADA — no need for expensive recess kits and associated installation expenses.
- On/off heat control offers customizable comfort and energy savings.

Learn more about  
our hand dryers.

### K-972P2

#### SMARTdri® Plus Hand Dryer

- Dries hands thoroughly in as little as 10 seconds.
- Adjusts between on/off heating and 3-speed motor controls to optimize sound, comfort and energy use.

### V-649A

#### HEPA-Filtered VMax® V2 Hand Dryer

- HEPA filter captures 99.97% of particles 0.3 microns or larger.
- Ergonomic design gives users generous space with a 25% wider drying cavity.

Q-973A2 VERDEdri Hand Dryer  
Z5003 Sundara® Drift Handwashing System

## KEY BENEFITS

### Cost Reduction

- Eliminates the cost of buying paper towels, removing paper towel waste, and any labor costs associated with paper towels clogging the plumbing system.
- Energy efficient and can use as little as 3.16 watt-hours per use.

### Time Savings

- Maintenance and facility teams save significant time by not having to restock paper towels and empty waste bins.

### Sustainability

- Hand dryers use less energy to produce and less CO<sub>2</sub> pollution than processing paper towels.
- Touchless hand dryers also help save trees from deforestation and eliminate landfill waste.

### Health and Safety

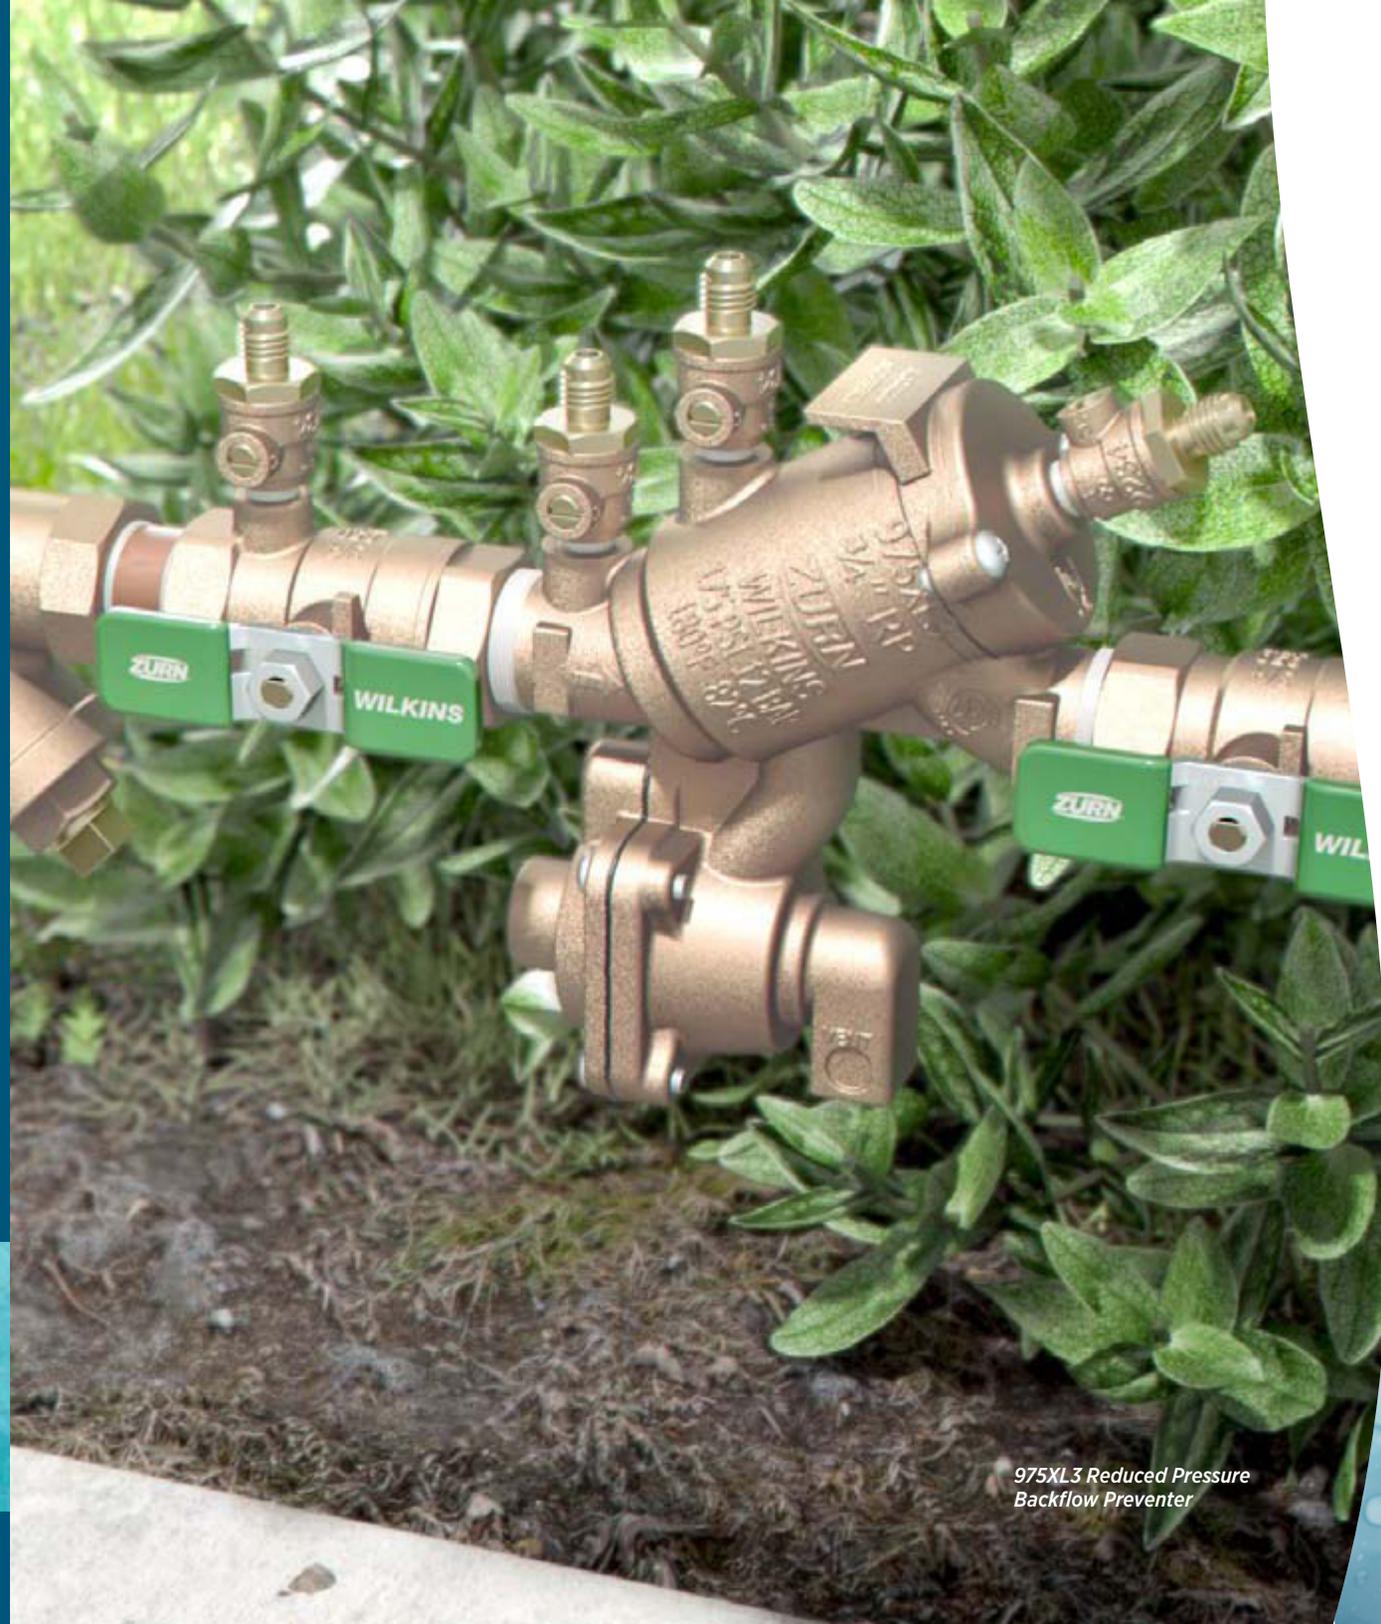

- HEPA filter captures 99.97% of particles 0.3 microns or larger.
- Touchless operation offers a more hygienic experience.
- Installing high-speed, energy-efficient hand dryers may also contribute to earning LEED credits.

OUR SOLUTIONS

# WILKINS

## PRESSURE REDUCING VALVES AND BACKFLOW PREVENTERS

The Zurn Wilkins time-tested portfolio of backflow preventers, automatic control valves, pressure reducing valves, thermostatic mixing valves, strainers and more can reduce time and costs associated with installation, maintenance and repairs.

*975XL3 Reduced Pressure  
Backflow Preventer*

Learn more about our  
backflow preventers.

## KEY BENEFITS

### Cost Reduction

- Lowest cost of ownership.
- Premium components for longer lasting valves.
- Maintenance is easy and economical.

### Time Savings

- Double union valves for fast installs and retrofits.
- Cartridge style internals for easy swap maintenance.

### Sustainability

- Reduce water consumption with PRVs (dropping from 100 to 50 psi saves 25% or more in water consumption).

### Health and Safety

- Backflow preventers keep contaminated water from flowing back into the potable water supply.
- Pressure reducing valves reduce water pressure to safer levels.

### 500XL3/600XL3

#### 500XL3/600XL3 Pressure Reducing Valves

- Best-in-class flow performance and durability in its class.
- Upgraded corrosion-resistant internals for longer lasting valves.

### 900XL3

#### 900XL3 Series Small Backflow Preventer

- Most compact bronze small backflow in its class.
- EZ Swap® and low-cost repair kits extend valve life.

### 300AR

#### 300AR Series Backflow Preventer

- Lowest total cost of ownership.
- Retrofit unit matches any lay length for drop-in replacement that maintains accreditations.

Learn more about our pressure reducing valves.

# INTERCEPTORS

Don't put your piping, sewers or the environment at risk. Zurn's interceptors keep you in compliance with the lowest total cost of ownership, best warranty in the industry, and highest piece of mind.

## Z75H 75, Z50H 50, Z250H

### FOG-ceptor Hydro-Mechanical Interceptors

- Complete family of FOG-ceptor fiberglass interceptors available from 50 GPM to 100 GPM.
- Delivers industry-leading performance by capturing and retaining pollutants.
- Certified by PDI, IAPMO (UPC) and CSA.
- Fiberglass construction for long service life – backed by a lifetime warranty.
- Delivered within 24 to 48 hours.

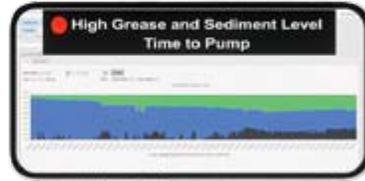

## GMC 1000 UPC and GMC 1500 UPC

### Proceptor® Gravity Interceptors

- Complete family of Proceptor fiberglass interceptors available from 50-gallon to 10,000-gallon capacity.
- Delivers market-leading separation, capturing wastewater, grease, food solids and sediment.
- Smooth fiberglass construction for fast and simple cleaning and maintenance. Eliminates scraping or pressure cleaning to remove build-ups.
- Certified by IAPMO (UPC).
- Fiberglass construction for long service life; lifetime warranty for lowest total cost of ownership.

Learn more about our interceptors.

## SmartPro™

### G5 SmartPro Wireless Monitoring and Alarm System

- Save labor and maintenance costs with real-time data about what's happening inside the interceptor.
- Patented ultrasonic monitoring provides real-time data on the interceptor's grease, oil, sludge, total liquid levels and temperature.
- Audio and visual alarms, as well as digital notifications, signal when it is time to pump or when liquid level is too high.
- Cloud-based portal hosts all data for streamlined information access and management.
- Long-life lithium battery extends the system's functionality for lasting performance.

## KEY BENEFITS

### Cost Reduction

- Backed by a lifetime warranty. Superior performance reduces and/or eliminates sewer-use surcharges and penalties.

### Time Savings

- Easy to install and maintain due to design.

### Sustainability

- Ensures better separation efficiency of fats, oils and grease and prevents them from entering sewers.

### Health and Safety

- Prevents leaks and exposing soil and groundwater to harmful chemicals.

# ZURN ELKAY SMART PRODUCTS

Help facility teams prevent major repairs, detect leaks and schedule maintenance only when needed by using our smart product collection. This line of products wirelessly connects to the plumbSMART online portal so you can anticipate problems before they start. The products wirelessly monitor usage trends, water consumption and possible issues and can be customized to any building type. Building owners gain a better sense into their plumbing systems for a smarter operation.

## BEYOND THE SPEC

### PREDICT AND PREVENT

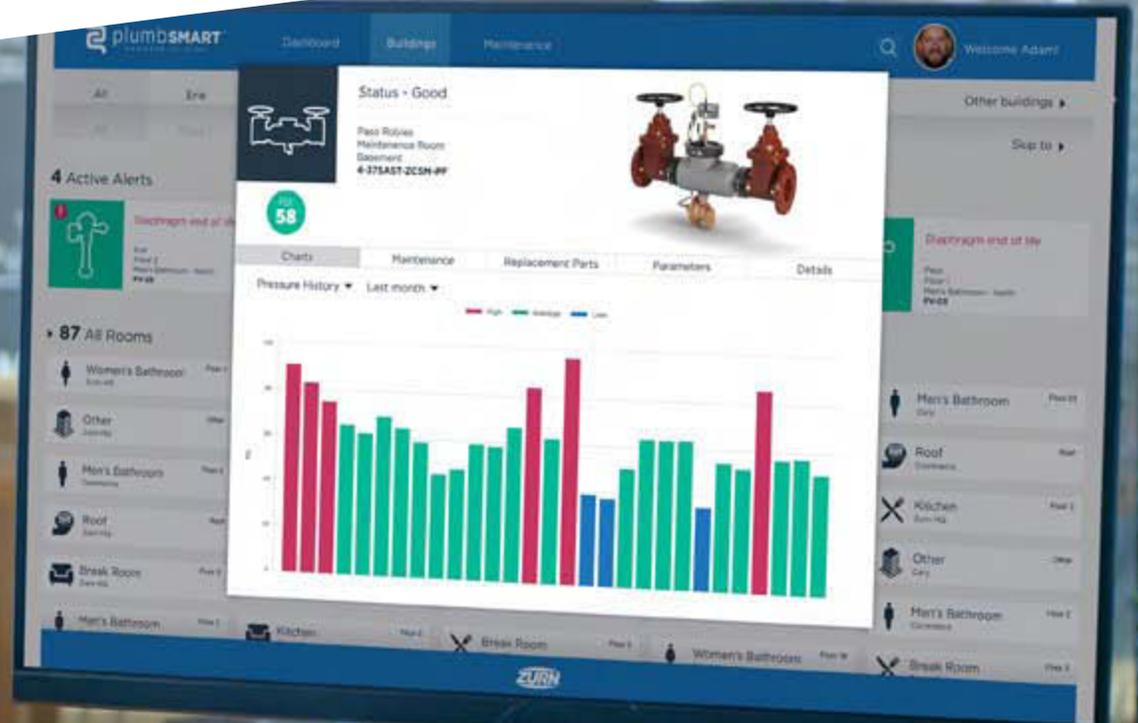

Real-time insights provide the ability to predict when maintenance is needed and prevent costly downtime.

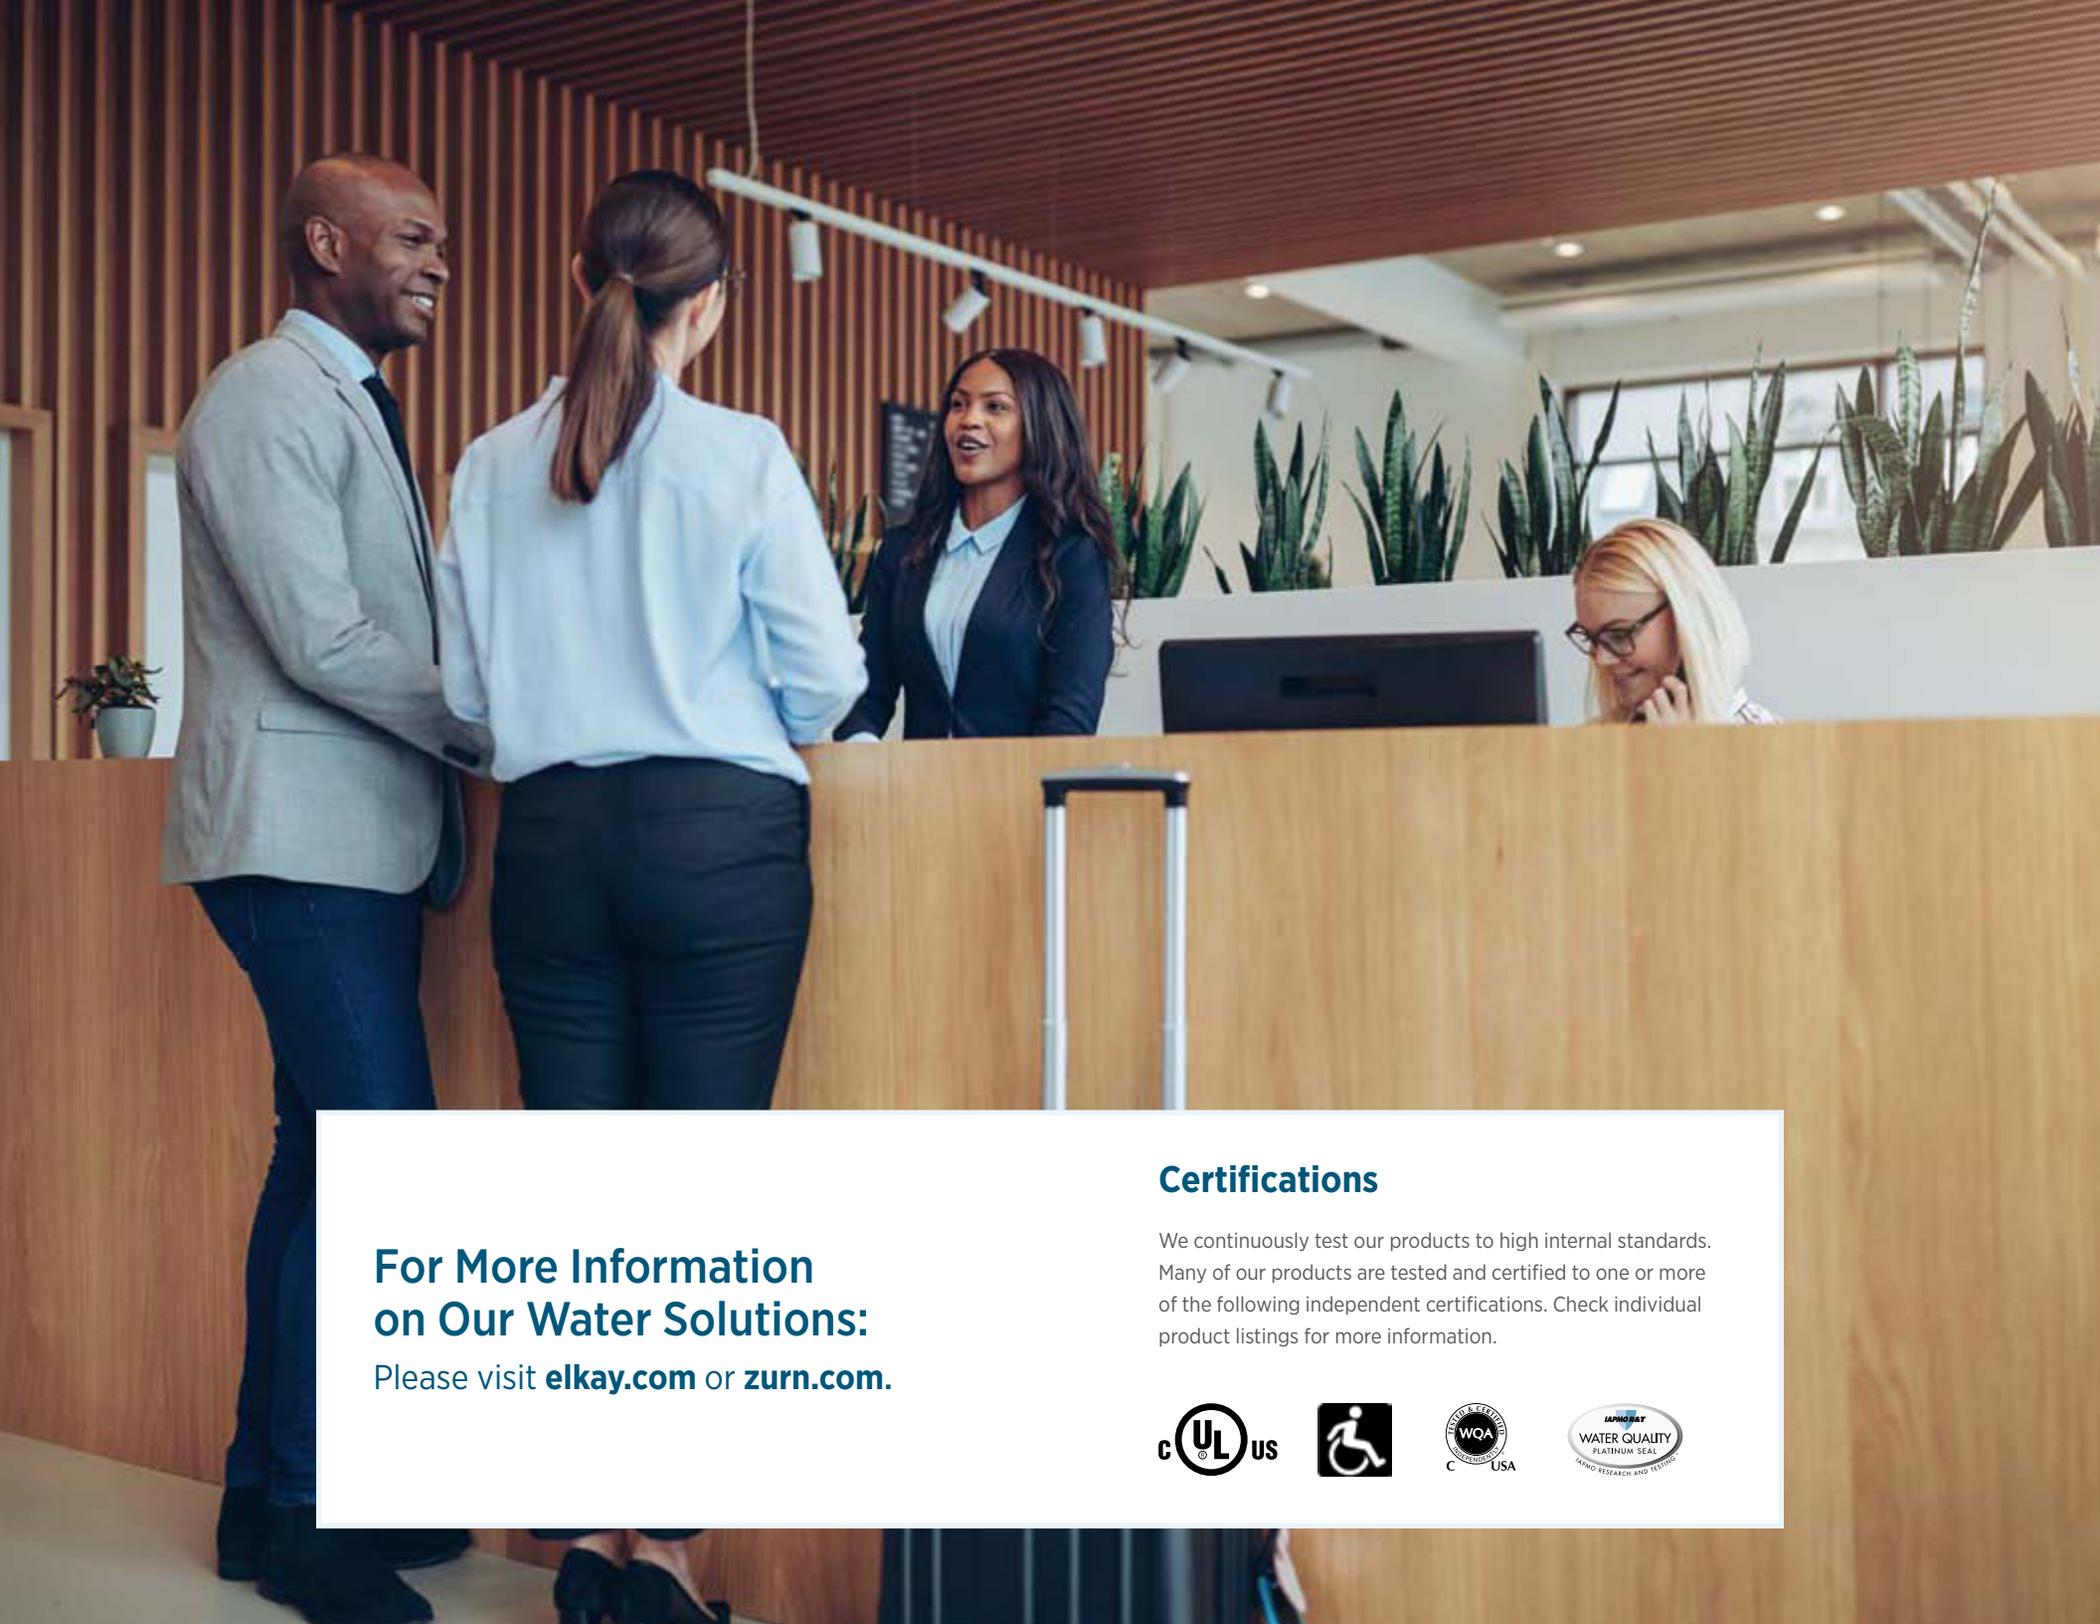

### ACCESS DATA FROM ANYWHERE

Our plumbSMART portal offers 24/7 access to product information and trends.

### SECURE DATA

Fully encrypted data uses a wireless network to keep data secure.

## For More Information on Our Water Solutions:

Please visit [elkay.com](https://www.elkay.com) or [zurn.com](https://www.zurn.com).

### Certifications

We continuously test our products to high internal standards. Many of our products are tested and certified to one or more of the following independent certifications. Check individual product listings for more information.

## **ABOUT ZURN ELKAY WATER SOLUTIONS**

Headquartered in Milwaukee, Wisconsin, Zurn Elkay Water Solutions is a growth-oriented, pure-play water business that designs, procures, manufactures, and markets what we believe is the broadest sustainable product portfolio of solutions to improve health, human safety, and the environment. The Zurn Elkay product portfolio includes professional grade water control and safety, water distribution and drainage, drinking water, finish plumbing, hygienic, environmental and site works products for public and private spaces.
