TAKING CARE OF YOUR TOUGHEST LAUNDRY CHALLENGES.

UNIMAC.COM

MAXIMUM PERFORMANCE WITH MORE CONTROL

Quality results are the goal of your on-premises laundry. However, you also want advanced functionality and access to the data that enables you to better manage your resources. UniMac® Premium tumble dryers deliver exceptional performance along with our legendary durability, while offering complete control of the operation.

LOWER YOUR COSTS WITH UNIMAC

Drying cycles are usually 30 percent longer than wash cycles. Reducing dry times to match wash times enables you to run your laundry at maximum efficiency. Our dryers are designed for fast drying, while balancing energy costs. With more than 70 years of dryer engineering experience, we have found the perfect balance between drying time and actual Btu usage to conserve energy, maximize throughput and lower labor costs.
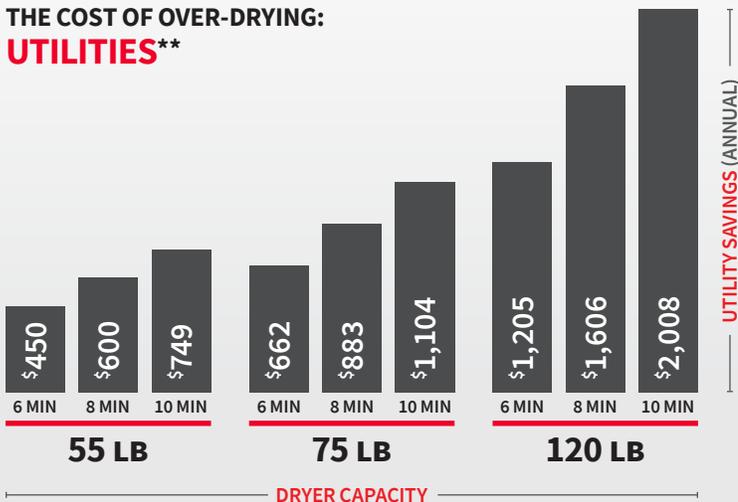

OPTidry™
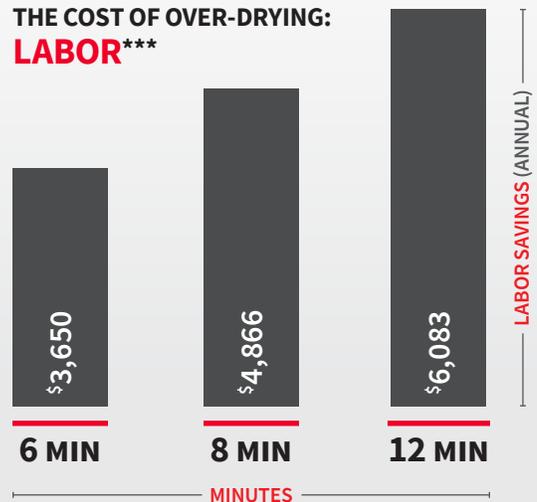

OVER-DRY PREVENTION TECHNOLOGY*

UniMac's optional OPTidry system takes efficiency further by eliminating costly over-drying. Removing over-drying from your laundry not only reduces utility expenses, but also curbs labor costs and extends linen life, saving up to thousands of dollars annually.

OPTIDRY SAVES AN AVERAGE OF 8 MINUTES PER LOAD.
WHAT WOULD 8 MINUTES PER LOAD SAVE YOU?

THE COST OF OVER-DRYING: UTILITIES**

UTILITY SAVINGS (ANNUAL)

	55 LB			75 LB			120 LB

19:58 minutes

BRIGHT, CAPACITIVE TOUCH SCREEN
with clear cycle navigation

34 LANGUAGE OPTIONS
enabling staff members to operate the machine in their first language

STREAMLINE THROUGHPUT
with an easy-to-read main screen cycle countdown timer, complimented by a count-up timer upon completion of the cycle
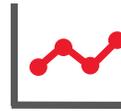

SEAMLESS USER EXPERIENCE
with control continuity from the washer-extractor to the tumble dryer

STAFF TRAINING
is quick and simple with this intuitive control

SET-UP, PROGRAMMING, AND TROUBLESHOOTING
simplified with easy-to-understand notifications

DIAGNOSTICS AND MACHINE AUDIT DATA
identify and resolve errors faster, reducing downtime and service costs

M SERIES CONTROL

This customizable control allows any combination up to 30 auto-dry and time-dry cycles to be saved, providing easy user interface.

We engineered **CORE TECHNOLOGY** to help remove laundry room "blind spots" and give you access to important operations data through a user-friendly app. But why? Seemingly "small" operations missteps can have large impacts on the laundry's finished quality, efficiency, and much more.

Bottom line: you can't improve what you can't see. CORE is designed to remove those blind spots and helps you get the most out of your equipment investment.

CORE CAPABLE

C.A.R.E.™

In the unlikely event of a linen fire within the cylinder, our optional Combustion Automated Response Equipped (C.A.R.E.) system, a multiport water manifold system, will saturate the linens in the cylinder. It can also activate an alarm at a remote location.

C.A.R.E™ is available for tumbler dryers with UniLinc Touch and select M Series control packages.

BUILT ON QUALITY
SINCE 1940

Proudly based in Ripon, Wisconsin, USA, UniMac is dedicated to research, development and testing to provide equipment that delivers industrial strength and long-lasting quality. Our products undergo a 5-stage product-development process and are pushed beyond their limits in our state-of-the-art test lab to ensure they exceed the toughest demands of the commercial environment and meet our customers' highest standards.
