

A comprehensive program to help deliver reliable outcomes

Clean

- Help meet guest expectations for visibly clean floors.

Protect

- Help improve safety with strong grease removal and increased slip resistance.¹

Optimize

- Help save labor, time, and water with simplified procedures and floor cleaners that work across various floor types.

Ecolab's proven expertise

- **On-site** service, consultation and guidance.
- **On-Demand Digital Training** available 24/7 on any device in multiple languages.
- **Innovative Programs** Science-based programs and products to simplify operations and help protect the health and safety of guests and staff.

Why clean floors matter:

More than **25,000** slip-and-fall accidents occur every day in the United States²

Up to **30%** of slips and falls in the kitchen are caused by grease²

Contact your Ecolab Representative or call 1 800 35 CLEAN for more information.

1. Improved grease removal compared to Ecolab Oasis 115XP is based on internal lab testing on greasy food soils representative of soils found on the floor of a commercial kitchen.
2. Restaurant Technologies https://www.rti-inc.com/wp-content/uploads/2017/06/KitchenSafety101_Whitepaper_October2016.pdf.
